Preface

The earliest attempts at cataloguing Jamboree Shoulder Patches (JSPs) were the collecting guidebooks *A History of Scouting Through Insignia: Arapaho I* (1976) by Albertus Hoogeveen & Richard Breithaupt Jr, and *Local Council Identification of the Boy Scouts of America* (1979) by Prince Watkins. Neither resource focused exclusively on JSPs, however, and the successor CSP catalogs, *An Aid to Collecting Selected Council Shoulder Patches with Valuation Guide* by David Franck, Don Hook, Jim Ellis, and Tom Jones, made a deliberate decision to exclude JSPs from BSA National Jamborees and World Jamborees from their listings. In 1998, John Hice published the illustrated *BSA National Jamboree Shoulder Insignia: A History in Color* that for the first and only time captured full color images of JSP issues.

In the intervening 25 years, no attempt has been made to document JSP issues until the present undertaking. Although many would love to see a fully illustrated JSP Guide like the Hice book, that requires a tremendous effort that could take years to prepare. When Hice published his book covering BSA National Jamborees from 1937 – 1997, it totaled 1500 JSPs. The current listing has nearly 15,000 items, thanks to the current practice of issuing council sets, limited editions, and fundraisers. So this simple listing will have to suffice for now.

The scope of this guidebook includes JSPs for BSA National Scout Jamborees and World Scout Jamborees only. Excluded are JSPs from foreign national or regional jamborees (e.g. Nippon Jamboree, Asia Pacific Jamboree, Scottish Jamborette, Eurojam, Jam de Neige, etc.), although these issues are already cataloged in *An Aid to Collecting Selected Council Shoulder Insignia*.

The JSP Guide has been organized into two sections; the first listing the items by Jamboree, and the second listing them by council. Staff, spoof, and private issues are only listed under their respective Jamboree and not in the council section. Just like the *Aid to Collecting Selected Council Shoulder Insignia* makes exceptions to include JSPs that look like CSPs, this guide will do the opposite and list CSPs that look like JSPs but are not. These are primarily CSPs for council Jamboree events occurring in a National or World Jamboree year. Anything in this guide that is also listed in the *Aid to Collecting Selected Council Shoulder Insignia* will be cross-referenced with their CSP issue code for convenience.

Introduction

The term “Jamboree Shoulder Patch,” or JSP, first came into common usage after the introduction of the Council Shoulder Patch (CSP) in 1970, but the JSP itself has been an aspect of every Jamboree since the first one in 1935 was cancelled due to a polio outbreak. The *Organization Manual for the Boy Scouts of America National Jamboree – 1935* described the first JSPs designed for use at the Jamboree:

> 115.07 Troops shall be designated by a numbering and lettering on the shoulder of each Scout and Scouter which shall indicate the Region, the Section and the Troop. Region shall be numbered I to XII, Sections lettered from A to Z, and Troops from 1 to 34, thus IA1 would indicate Region I, Jamboree Section A, and Troop 1 of that section. This lettering shall be displayed on each Troop Flag.

The 1935 JSPs were silkscreened white on red felt crescents with the Roman numeral region on the first line, and the section and troop on the second line. Although theoretically there would be 884 different JSPs for 1935, an effort was made to include in this guide only the JSPs that have been documented to exist. One could probably safely assume that JSPs were made for all troops numbered below the highest number documented for each letter. As new ones come to light, they will be included in future updates. The Section letters I, J, O, R, and X have not been found among extant JSPs, and no 1935 JSPs are known for Region X. Troop flags exist that show Region X was assigned to Section X. In 1937, Sea Scouts wore special silkscreened white on navy blue felt crescents with S·S·S· and the ship number. Ship 32 is the highest number documented. Boy Scouts at the 1937 Jamboree did not use the red felt JSP again, but instead attached felt ribbons with the region, section, and troop number.

Scouts in the 1950s and 60s wore community strips to identify their town or city, so council level identification was not necessary unless a contingent of Scouts from multiple troops was representing the council at a National Jamboree. Thus, many of the early JSPs were in fact the first “council shoulder patches” for the council even though the CSP itself was not officially sanctioned until 1970. It might be said that the JSPs with their colorful depictions of local attractions were the inspiration for the introduction of the CSP. Since not all JSPs clearly indicated an association with a particular Jamboree, collectors have classified ambiguous issues as CSPs. These have been cross-referenced in this guide with their CSP issue code.

JSP collectors today will be familiar with the special JSP sets that feature different JSPs around a large center patch. This practice was not seen until the 1997 National Jamboree when Old North State produced a set of five JSPs that used the Jamboree patch as its center. The idea of using multiple border colors began as far back as 1977 when Hiawathaland Council issued a yellow border for their staff. The commercialization of JSPs with corporate logos, characters, and products did not begin in earnest until the 1997 Marin JSP featuring Yoda of Star Wars fame. Currently, it is not surprising to see contingents with three full sets of JSPs – trader, contingent, and fundraiser.

<u>How to use the JSP Guide</u>

Descriptions for each patch include a unique identification number (ID), border color (BDR), color of the general background or the sky (BKG), color of the fleur-de-lis or BSA (FDL/BSA), color of the letters in the name (Name Color), any additional descriptive notes, and the CSP issue code if cross-referenced in the CSP Guide (CSP). The ID for each JSP is merely a unique identifier and is not meant to convey the Jamboree year, council, or issuing sequence. When an issue is checked off in the Jamboree year listing, it is also automatically checked off in the council listing. To the extent possible, the Name field will capture the text on the patch to help make identification easier when searching for ambiguous patches.

ID	Name	BDR	BKG	FDL/ BSA	Name Color	Notes	CSP

The council listings include extra fields to denote the Jamboree year and whether it was a World Jamboree (W) or BSA National Jamboree (N).

The listings sorted by Jamboree year will present staff JSPs listed first, followed by spoof/private issues, and then contingent issues. Note that the staff and spoof/private issues are not included in the council listings in Section 2.

Color abbreviations:

AQU	aqua	DGY	dark grey	LOR	light orange	PRM	purple mylar
B/W	black & white	DOR	dark orange	LPK	light pink	PUR	purple

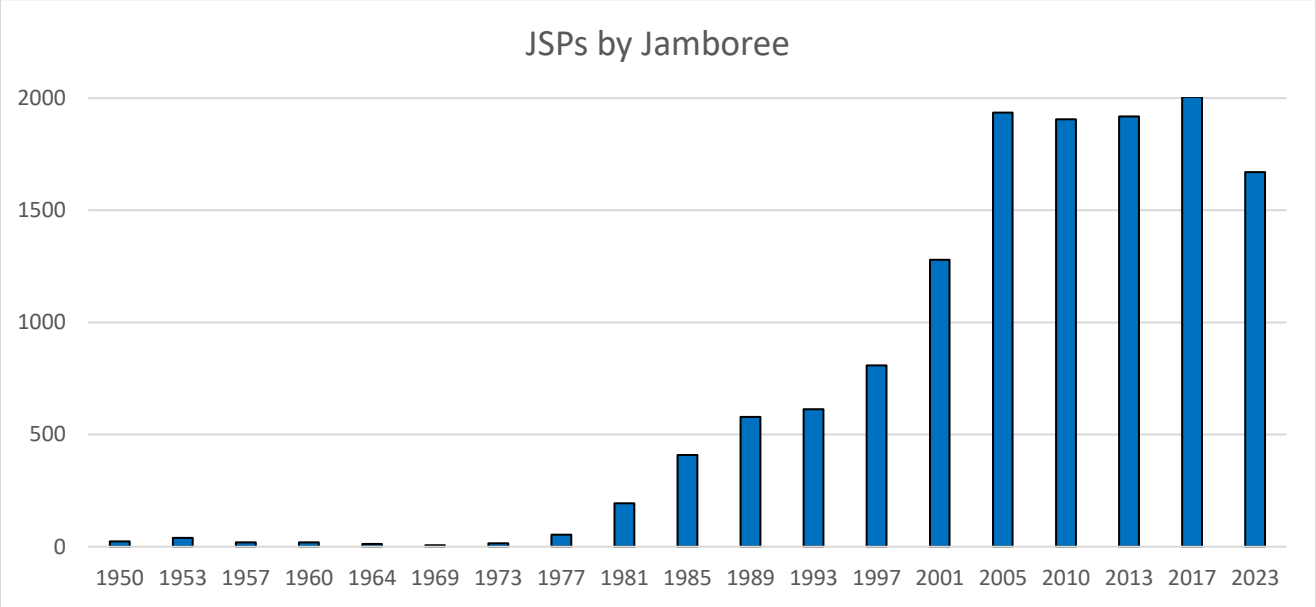
Afterword

How many JSPs are issued at each Jamboree?

When I attended the 1977 National Jamboree as a youth, there were 54 JSPs issued (some after the fact). This was a huge explosion compared to the previous Jamboree with only 14 JSPs. Traders went out of their minds in 1981 when there were 194 JSPs available to collect! As spoofs proliferated and patch sets became the norm, the number of JSPs continued to grow. Currently, BSA National Jamborees see around 1900 JSPs for contingents and staff, although the number dropped significantly in 2023.



Scouting Collectors Society 2001 JSPs

In 2001, the Scouting Collectors Society (SCS) issued 115 JSPs for the Jamboree. According to *The History of Scouting Collectors Society* by Chuck Schadrack, the SCS was founded in 1999 by Deryl Radder, a well-known collector, and it quickly began churning out hundreds of patches – most in the CSP shape – over its three-year existence. Many were made in extremely low quantities of only 10 and the JSPs came in both full color and ghost varieties for each state, plus Puerto Rico and the Virgin Islands.

2005 Fire Department Staff JSPs

Gregg Sablic was a Scouter who served on the Fire Department staff at numerous Jamborees. In 2005 he decided to honor the firefighters who had died during the 9/11 response, not with a single JSP, but with a JSP for *each individual*. Gregg secured a list from the Fire Department of New York (FDNY) of those who had died and had the patches made. 343 members of the FDNY perished on 9/11, including two paramedics and the department chaplain. However, due to errors and oversights, there are 348 Fire Department Staff JSPs and one bullion for 2005.

- Firefighter Michael Montesi was overlooked and a JSP was not made for him.
- A JSP was made in error for Lt. Marke E. Polan who was not in FDNY and died in 1990.
- JSPs were made for three individuals who were retired from FDNY but working in the Fire Safety Department at the World Trade Center when they perished. They are Capt. James J. Corrigan, FF Philip T. Hayes, FF William X. Wren.
- The initial FDNY list accidently copied the last name of Louis Arena onto David Arce. (Their names were next to each other on the list.) This resulted in the creation of a David Arena error. A correct David Arce JSP was subsequently made.
- There are two varieties for Raymond Downey: BC Ray Downey and BC Raymond Downey.

Most of the abbreviations used on the patches are self-explanatory, but AC = assistant chief, BC = battalion chief, FF = firefighter, EMS = emergency medical services, FM = fire marshal, Rev = Reverend.

Acknowledgements

With any compilation of this magnitude, it cannot be done alone. I am deeply indebted to the authors of the seminal works in this area; Albertus Hoogeveen, Prince Watkins, and especially John Hice whose book was the starting point for this guide. I'd also like to thank and recognize the many people who helped by providing information and corrections to the listings: Bob Walton, Kirk Herbert, Jeff Ansley, Martin Stott, Tony Smee, Gregg Sablic, Chuck Schadrack, Rob Kutz, James Ellis, Dave Scocca, Bob Cylkowski, Dustin Ferris, Larry Kelley, Brent Clark, Scott Wheeler, Mike Bazonis, Chris Jensen, Chuck Williams, Brett Estrade, Mark Scheiderer, Jim Lyman, Mark Chilutti, Ed Fuentes, Paul Muehlebach, Boyd Williams, Frank Kern, Chris Brightwell, Albertus Hoogeveen, Lou Smith, Kelly Williams, Dave Minnihan, Gene Berman, Bruce Shelley, Marty Abramson, Don Izard, Tom Jones, Brian Horn, Paul Myers, Tripp Clark, Shane BuChans, Michael Volder, Brian Holtel, Chuck Jaxel, Christopher Knudsen, Jeff Jones, Gordon Mathis, Dave Pede, Kyle Temple, Chris Graves, Joe E. Smith, Steven Follett, Marcus Bailey, Paul Huffman, Austin Webb, Conner Colbert, Greg Pedlow, Nathan Fountain, Bryan West, David Fry, Michael La Turno, Trey Walls, Robert Frizzell, Charles Feller, Bill Loeble, Steve Scheidt, Don Daffron, Ryan Downey, Brian Ives, Dan Matthews, John Mellette, James Hewitt, Frank Glick, Joshua Saunders, Nathan Mellom, John Snead, Jeffrey Campos, Darin Powell, Charles Howard-Gibbon, Evan Hiser, John McLellan, Jonathan Coleman, Drake Hargis, William Collicott, Robert Pattison, John van Velthuyzen, Matthew Lug, Todd Rogers, Frank Bolton, Wu Hsiu-Chen, Robert Sandlan, Julie Smart, Petra Walker, Earl Bonovich, Daniel Yih, Siang Tong Tan, Jimmy Yip, Eric Chee, Robin Ngeow, Henry Tan, Michael Sutton, Charlie Aman, Ted Langdon, Charlie Shissias, James Gottshall, Connor Suvanto, Frank Caccavale.

About the author

David Miura is an Eagle Scout from Pacific Skyline Council and a Vigil member of Ohlone Lodge 63. He attended the 1977 National Jamboree as a youth and served on the International Service Teams at the 2011, 2015, and 2019 World Scout Jamborees. His collecting interests include CSPs, Scouting license plates, California OA, World Jamboree, and of course JSPs. His last name is pronounced like the naturalist John Muir, with "ah" added at the end.
